[REDACTED]

Happy happy happy birthday!!

Flying in from Zurich now hope to see you, even if just for a few minutes. I'm there late afternoon till tomorrow night

Sending you to tons of love and hoping for more time with you this year and all the ones ahead

05:55:54 pm

[REDACTED]

Call when here
06:27:35 pm

[REDACTED]

Landing now at Newark!

07:58:08 pm

Do you have some time around 4 or 415 to say hi???

08:05:28 pm

I have a 630 dinner meeting and would love to see you before BIRTHDAY BOY

08:15:07 pm

[REDACTED]

4 works
08:45:43 pm

EFTA01617419

Can't get there will be closer to 420 or 30 depending on traffic?

08:47:44 pm

Even if just for 5 minutes Quick hug

08:47:56 pm

Driver says arrive 425pm

09:04:57 pm

7 minutes

09:21:20 pm

Forgot to tell you that my dad is a Vietnam veteran and both of my grandfathers are Korean conflict vets.

11:23:05 pm

Almost all of my uncles served in the military as well. My father is currently a patient at the VA too.

11:23:33 pm

Goldman Sachs Foundation works on veterans issues?

11:24:30 pm

Contact this scientist for your video game she might have some good framing suggestions

11:39:54 pm

https://www.weforum.org/agenda/2017/01/how-populism-taps-into-the-human-desire-for-punishment?ET_CID=1443480&ET RID=PC-001b0000002lztcAAA

Populist movements are wreaking economic destruction and social turmoil in the name of moral principles.

2017/01/21

feel free to ask bill if he would like a private meeting with bannon thiel or barrack also prepare your resume

11:46:58 am

Will do
I see him next weekend

05:14:14 pm

And - one consideration might be to work w Boris for a bit ("Bills biotech") and see if i can get him to put more in for Boris. But Boris says biotech took a big dive and its harder to find good investments

05:15:10 pm

EFTA01617421

Mexican American Texan republican physician with international health and development experience at UN/WHO, gates, world bank. Family of veterans, first medical Doctor in family. Worked all my career in public health systems.

05:16:49 pm

Will find a way to elegantly say.

05:17:07 pm

Also my expertise is public health security. Pandemics (just did pandemic simulation) and threats to US health. That could be big platform.

05:19:36 pm

And here are your birthday chocolates sorry

02:30:52 am

How were the lectures?

Did you learn anything new?

Two ideas - and mental health i think might be the best place to go deeper

1. Big autism study or national white paper that includes all voices. Some aspect of autism that would appeal to the vaccine ppl as well as the broader community
2. State of mental health in America / the prisons, the veterans, the workforce, the addicts - each has huge financial implications and to society

07:22:49 pm

BG would probably be interested in the autism work if I could figure out the right angle. Might be able to get friends at Merck too.

The other i don't know

07:23:28 pm

Some immediate next landing spots (either alone or in sequence or combination somehow) could include:

- board partner at biometrics

Capital (Boris) but would mean I have to help him raise funds from BG. Offers breathing room and a private sector angle in a safe space

- BG office (for 6 months max) working on a series of messy agendas but as his senior science advisor

- rockefeller vp of schmeckelville to help reorg and set next 5 year strategy which could include portfolio on US health

- go back and practice medicine seattle / public hospital and write a book or something similar and take a vacation

- join Merck team for 6-12 months in their vaccine team (big push for gardasil vaccine/HPV) would have to base in Rwanda

- join MasterCards inclusive growth team as their "whatever" in residence or senior advisor to the CEO

- join the world economic forum as chief science advisor to klaus Schwab

- move to Alibaba in Hangzhou and immersive mandarin for 3 months then move Onto jacks international development platform (small business platform)

- LEAST FAVORITE - world bank (for 3-4 more months If I want but I really don't want) managing corporate delivery strategy and g20 health security stuff OR to the IFC health investing team

Still thinking but don't want to do something too random. There may be more I'm Forgetting but these seem most legitimate

07:35:14 pm

bg
07:36:20 pm

Oh also

- join Swiss re (reinsurance) team developing health products. Did one for pandemics, helped develop parametric trigger could

Do more

- join Martin Sorrell team and help develop media tech to understand and counteract international Gov't fragility

- join TPG and help Jin Yong Cai
(Former Goldman) build china health portfolio

- run Goldman Sachs foundation (no money anymore just fake grant management) on 10,000 jobs for women portfolio

07:38:10 pm

BG still seems like best for a lot of reasons

07:38:38 pm

No too broad

07:39:33 pm

Bg

07:39:38 pm

Ok

Need to be clear w BG what would help me and Him both

Beyond the obvious

07:40:15 pm

Could I still help Boris to learn a little more and also help him raise money

07:40:40 pm

EFTA01617425

BG ... He hates mental health but he's crazy about vaccines and autism stuff. That could be start to a more broad Conversation. If I told him mental health stuff in vets might also help w Gov't exec
Office he might also consider wider agenda
07:41:59 pm

Did a speech and seminar w Patrick Kennedy a few months ago and he offered to help me.

<https://www.patrickjkennedy.net>

He's mental health guy but also super Connected w Gov't in DC
08:38:17 pm

Put together your resume.. for my submission
09:44:33 pm

By when ? ASHRAM
11:38:06 pm

your call
11:46:11 pm

Incumbent appointment is till December 2018

Seems premature?

I guess they could throw him out at any time?
